

OOPsie Meeting

OOPsie

LP1, 2021

Meeting participants: Simon Engström, Simon Johnsson, Petter Blomqvist,
Carl Bergman (Supäervisor)

Facilitator: Simon Engström

Date: 202-10-14

§1 Meeting startup

How is everyone?

Everyone is well.

Meeting objectives

- Clear up some questions we have regarding the application-wide definition of done.
- Discuss event saving - Love Lindqvist.
- Update TA on project situation and peer review, find out how we are doing.

§2 Reports

1. Peer review
 - (a) Finished
 - (b) Issues? Some format questions but they have been resolved.
2. View-implementation of US
 - (a) Everyone has been implementing components in the view. Simon J has been implementing search-functionality. Simon Engström has developed the event-functionality further and added three new user stories that could be of value. Petter has continued with the persistent data functionality. Kurre has been implementing profile pictures, attachments and improving the contact view. Love has been implementing importing of contacts from VCF-files and directories, and added dialogs for creating and adding tags.

§3 Discussion items

1. Should contact form save instantly with change listeners?
2. How should we format the code?
3. JavaDoc @author?
4. We need to implement tagging onto contacts.

§4 Outcomes and assignments

- Contact will instantly save itself by utilizing change listeners, to avoid users being aggravated if they accidentally click away with unsaved changes.
- We should format the code using githubs automatic formatting functionality, to avoid having to do it manually.
- @author should be added in all classes so that its extra clear who has done what.
- Tagging on contacts will be implemented ASAP.

Assignments

1. Love will implement instant saving on contact, and tagging.
2. Petter will look into automatic code formatting when he is done with persistent data management. Will also look into having several users, with a "login" wizard.
3. Axel will go through the application and add the author tag, then begin work on a new US.
4. Simon J will fine tune the search algorithm, and then begin development on a new US.
5. Simon E will implement event-viewing through the contact-view, then begin work on statistics service.

§5 End of meeting

Next supervisor meeting: 2021-10-21 09:00-10:00 in EG-3207A. Next group meeting: Sometime tomorrow (2021-10-22)
