OOPsie Meeting

OOPsie

LP1, 2021

Meeting participants: Axel Larsson, Simon Johnsson, Love Lindqvist, Simon Engström, Petter Blomkvist
Facilitator: Axel Larsson
Date: 2021-10-24

§1 Meeting startup

How is everyone?

Simon E and Axel are excited for the Formula 1 race. Everyone feeling pretty good, not much left now and then just the presentation.

Meeting objectives

Plan for handing in assignment.

§2 Reports

1. Axel has worked on fixing redundant and suboptimal code. He has also documented some classes. He has taken responsibility for the quality part of the SDD.

2. Simon Engström has been optimizing the code to fit PMDs standard. Added JavaDoc everywhere it was supposed to be. Finalized the GUI part of the RAD and updated/proof read the system architecture part of the SDD.

3. Simon Johnsson implemented notifications and updated UML diagrams for packages.

4. Love Lindqvist has fixed some bugs in the frontend, updated some diagrams, and worked on making sure our test coverage is good.

§3 Discussion items

1. Should user stories that are not quite done be marked as completed or not? For example tag and notifcation.

§4 Outcomes and assignments

1. We will mark them as partially/almost complete and mark the functionality that is not completed.

Assignments

- Everyone needs to finish their parts of the SDD/RAD and help others. Look over your user stories so they are correct in the RAD.

- After we have turned in the project we need to create the presentation and practice a few times.

- Don't forget to do self review, due 2021-10-26 23:59.

§5 End of meeting

Last meeting :o
